

Quality and Innovation Conference

March 21-23, 2018

Gaylord Palms Resort & Convention Center
Orlando, Florida

INNOVATION

Quality, Safety,
and Staffing

PROGRAM

SCHEDULE AT A GLANCE

WEDNESDAY, MARCH 21

9:00 a.m. - 1:00 p.m.	Buses depart for Florida Hospital Innovation Lab Tours (separate registration required)
11:00 a.m. - 7:00 p.m.	Presenter Ready Room
11:00 a.m. - 7:30 p.m.	Registration, Bookstore & ANA Enterprise Booths Open
4:30 p.m. - 5:15 p.m.	Book Signing - Robin Newhouse
4:30 p.m. - 7:30 p.m.	Exhibits & Presentations
4:30 p.m. - 7:30 p.m.	Welcome Reception
4:30 p.m. - 7:30 p.m.	Poster Viewing

THURSDAY, MARCH 22

7:00 a.m. - 2:15 p.m.	Presenter Ready Room
7:00 a.m. - 4:30 p.m.	Registration, Bookstore & ANA Enterprise Booths Open
7:00 a.m. - 8:30 a.m.	Breakfast & Poster Viewing
8:30 a.m. - 9:45 a.m.	General Session: Keynote "Unleash Your Inner Innovator" - Nicholas Webb
10:00 a.m. - 10:45 a.m.	Book Signing - Nicholas Webb
10:00 a.m. - 11:00 a.m.	Rapid Fire Posters: Research
10:00 a.m. - 11:00 a.m.	Concurrent Sessions
10:30 a.m. - 3:00 p.m.	Exhibit Hall Open
11:00 a.m. - 12:00 p.m.	Poster Viewing
11:00 a.m. - 1:00 p.m.	Lunch
11:30 a.m. - 1:00 p.m.	Presentations in Exhibit Hall
12:00 p.m. - 1:00 p.m.	Posters with Presenters
1:15 p.m. - 2:15 p.m.	Concurrent Sessions
2:30 p.m. - 4:30 p.m.	General Session: "Solve Nursing Quality Challenges with Innovation"
5:00 p.m. - 7:00 p.m.	Paint and Sip (Separate registration required)
6:45 p.m. - 10:00 p.m.	Dinner With Strangers (Sign up through the conference app required)

FRIDAY, MARCH 23

7:00 a.m. - 8:30 a.m.	Breakfast & Poster Viewing
7:30 a.m. - 8:15 a.m.	Presenter Ready Room
7:30 a.m. - 3:30 p.m.	Registration Open
7:30 a.m. - 4:30 p.m.	Bookstore & ANA Enterprise Booths Open
8:30 a.m. - 9:45 a.m.	General Session: Keynote "Turn Ideas to Action! The Power of Innovation in Nursing"
10:00 a.m. - 11:00 a.m.	Concurrent Sessions
10:45 a.m. - 2:30 p.m.	Exhibit Hall Open
11:15 a.m. - 12:15 p.m.	Rapid Fire Posters: Work Environment
11:15 a.m. - 12:15 p.m.	Concurrent Sessions
12:15 p.m. - 1:00 p.m.	Poster Viewing
12:15 p.m. - 1:30 p.m.	Lunch
12:30 p.m. - 1:15 p.m.	Book Signing - Christy Dempsey
1:00 p.m. - 2:00 p.m.	Posters with Presenters & Meet your Virtual Oral Presenters
2:15 p.m. - 3:15 p.m.	Concurrent Sessions
3:30 p.m. - 4:30 p.m.	General Session Nursing Innovation Challenge Game Show!

CONTINUING EDUCATION

Conference Goals

- Utilize evidence-based quality innovations to drive quality and safety.
- Demonstrate the effective use of technology and data to improve nursing practice, patient outcomes, and highlighting the value of nursing.
- Align quality and safety through the characteristics of high reliability organizations, to improve patient and nursing outcomes.
- Maximize the use of quality, safety and innovative strategies to drive patient-centered care with the patient engaged as a full partner in care.

Conflict of Interest

The planners of the conference have disclosed no relevant financial relationships. Speakers with relevant conflicts of interest will be announced prior to their individual educational sessions.

Disclosures for General Session 3 (G03):

- Kristi Henderson would like to disclose ownership in mPower, LLC, a patient monitoring service.
- Michele Davey would like to disclose receiving royalties on the product The SEE IV produced by MEDLINE.

The content of these sessions have been reviewed to ensure lack of bias.

Continuing Education Credit

Attendees can earn a maximum of **20.25** contact hours from the 2018 ANA Quality and Innovation Conference.

- 16.25 contact hours for the conference and poster sessions
- 4 contact hours for the virtual oral presentations

Get your CE Certificate

Deadline: April 23, 2018

- Be registered as a participant
- Be seated in the room no later than ten minutes after the session begins, and remain in the session until the scheduled ending time.
- Use your registration credentials to log in to the system: bit.ly/anaqi18claimcne
- Select the session(s) attended
- Complete the required evaluations
- Print and/or save certificate(s) (**Note: Fees apply once the above deadline has passed**)

Beginning April 24, 2018, certificates may be obtained from the American Nurses Association Center for Continuing Education and Professional Development. Please mail your written request, a list of session titles you attended, and a check payable to ANA in the sum of \$50 for each certificate requested to: ANA, PO Box 504410, St. Louis, MO 63150-4410. Allow four to six weeks for delivery.

CE Questions?

Call: 401-334-0220

from 8:30 a.m. - 6:00 p.m., EST

Email: ana@confex.com

Accreditation Statement

The American Nurses Association Center for Continuing Education and Professional Development is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

ANCC Provider Number 0023.

ANA is approved by the California Board of Registered Nursing, **Provider Number CEP6178**. Licensee must retain this certificate for a period of four years following the completion of the activity.

GENERAL CONFERENCE INFO

Conference Headquarters

LOCATION: Captiva Room, Level 2

Phone: 407-586 2650

Wednesday, March 21, 11:00 a.m. - 7:30 p.m.
Thursday, March 22, 7:00 a.m. - 4:30 p.m.
Friday, March 23, 7:30 a.m. - 4:30 p.m.

Presenter Ready Room

LOCATION: Daytona 1, Level 2

All speakers and poster presenters are required to check in at the Presenter Ready Room at least one day prior to their presentation. The room is staffed and has equipment for presenters' use.

Wednesday, March 21, 11:00 a.m. - 7:00 p.m.
Thursday, March 22, 7:00 a.m. - 2:15 p.m.
Friday, March 23, 7:30 a.m. - 8:15 a.m.

Poster Check-In

LOCATION: Exhibit Hall C

All poster presenters are required to check in and set up their poster in the exhibit hall.

Wednesday, March 21, 1:30 p.m. - 4:30 p.m.

Registration Hours

LOCATION: Osceola Ballroom Foyer

Wednesday, March 21, 11:00 a.m. - 7:30 p.m.
Thursday, March 22, 7:00 a.m. - 4:30 p.m.
Friday, March 23, 7:30 a.m. - 3:30 p.m.

Exhibit Hours

LOCATION: Florida Exhibition Hall A-C, Level 1

Wednesday, March 21, 4:30 p.m. - 7:30 p.m.
Thursday, March 22, 10:30 a.m. - 3:00 p.m.
Friday, March 23, 10:45 a.m. - 2:30 p.m.

Conference Bookstore

LOCATION: Osceola Ballroom Foyer

Wednesday, March 21, 11:00 a.m. - 7:30 p.m.
Thursday, March 22, 7:00 a.m. - 4:30 p.m.
Friday, March 23, 7:30 a.m. - 4:30 p.m.

PHOTOGRAPHY/VIDEOGRAPHY

Professional photographers and videographers will take pictures and record video throughout the conference. The photos and video will be used to publicize the event and/or produce related literature and products for public release. Individuals photographed or taped will receive no compensation for the use of photos or videos bearing their image. Conference participants will be deemed to have consented to the use and release of photos or videos in which they appear. Participants opposed to being photographed or taped must immediately notify BOTH the photographer or videographer AND conference staff if they are photographed or taped.

WAIVER OF LIABILITY

I agree and acknowledge that my participation in the 2018 ANA Annual Conference and any related events and activities is voluntary and intentional; I fully accept responsibility for any and all injuries that occur as a result of my participation in the ANA Conference events and activities. I release ANA, and its affiliates, officers, agents, employees, volunteers, contractors, and representatives, from any and all liability resulting from (1) participation in the 2018 ANA Annual Conference, (2) the condition of the facilities in which the events are held, and (3) the negligent acts of any other participant of the 2018 ANA Annual Conference, whether directly or indirectly caused by ANA. I further agree that I, my heirs, next of kin, spouse, agent, or legal representative(s) will indemnify ANA from any and all liability resulting from my participation in the 2018 ANA Annual Conference and that neither I, nor they, will file any legal claims naming ANA as a party to such suit.

BOOK SIGNINGS

All booksignings will be held in the Osceola Lobby @ the Bookstore

WEDNESDAY, MARCH 21

**Care Coordination:
A Blueprint for Action for RN's**

Author: Robin Newhouse,
PhD, RN, REA-BC,
FAAN

Time: 4:30 p.m. - 5:15 p.m.

FRIDAY, MARCH 23

**The Antidote to Suffering:
How Compassionate
Connected Care Can
Improve Safety, Quality,
and Experience**

Author: Christy Dempsey
Time: 12:30 p.m. - 1:15 p.m.

THURSDAY, MARCH 22

**What Customers Crave:
How to Create Relevant
and Memorable
Experiences at Every
Touchpoint**

Author: Nicholas Webb
Time: 10:00 a.m. - 10:45 a.m.

GENERAL SESSIONS

GS1 Opening Session

Date: Thursday, March 22

Time: 8:30 a.m. - 9:45 a.m.

Location: Osceola Ballroom C/D

Hosted by: Pamela F. Cipriano, PhD, RN, NEA-BC, FAAN

President, American Nurses Association

Keynote: Unleash Your Inner Innovator!

During this memorable session, world-renowned business futurist, inventor, and author Nicholas Webb will take you on an incredible journey through the future of innovation in healthcare. You will learn to recognize creative solutions to challenges you face in your routine nursing practice and gain insights you can put to work right now to build a “future-ready” workplace.

Presented by: Nicholas Webb

Business Futurist, Author, and Inventor

GS2 Solve Nursing Quality Challenges with Innovation

Date: Thursday, March 22

Time: 2:30 p.m. - 4:30 p.m.

Location: Osceola Ballroom C/D

Host and Facilitator:

Cheryl A. Peterson, MSN, RN

Vice President for Nursing Programs & Special Projects, American Nurses Association

Nurses and health care professionals tend to operate strictly within their departments or divisions. Using crowdsourcing – a human-powered, problem-solving paradigm – where both experts and peers participate, you will produce fresh, interesting, and beneficial solutions to your toughest quality, safety, and staffing challenges. Don't miss this hackathon!

#ANAhackathon

GS3 Turn Ideas to Action! The Power of Innovation in Nursing

Date: Friday, March 23

Time: 8:30 a.m. - 9:45 a.m.

Location: Osceola Ballroom C/D

Hosted by: Bonnie Clipper, DNP, RN, MA, MBA, CENP, FACHE

Vice President, Practice & Innovation, ANA

PANEL:

Get up close and personal with health care practitioners who've developed innovative solutions to daily challenges and made a positive impact on quality, safety, and workforce management. In this dynamic, interactive session, gain a deeper understanding of the power of innovation in nursing from inspired thinkers, plus recommendations for success. Leave with key takeaways you can implement in your work setting to improve quality and safety.

Michele Davey, RN, Clinical Nurse, Children's Hospital of Philadelphia, **Christi DeLemos, MSN, CNRN, ACNP-BC**, Associate Director of Advanced Practice, Patient Care Services, UC Davis Health, Sacramento, **Kristi Henderson, DNP, NP-BC, FAAN, FAEN**, VP Virtual Care & Innovation, Ascension Texas & Clinical Professor Population Health, Dell Medical School at UT, & **Karen Tilstra, PhD**, Co-Founder, Florida Hospital Innovation Lab

GS4 Nursing Innovation Challenge

Date: Friday, March 23

Time: 3:30 p.m. - 4:30 p.m.

Location: Osceola Ballroom C/D

End the conference on a high note! This fun session will link content from all previous sessions to actionable steps you can take right now to improve safety, quality, and staffing in your organization—in a fun game show format that allows you to show what you know, learn while having a blast! Return to your organization energized and ready to innovate!

CONCURRENT SESSIONS

THURSDAY, MARCH 22

C501 Utilizing Data to Drive Patient Safety and Quality Decision Making

Time: 10:00 a.m. - 11:00 a.m.
Location: Osceola Ballroom A

Dare to Be Aware: The Truth is in the Data Work Environment

Utilization of unit quality boards to share quality indicators helped take the data to the frontline and empowered them to generate improvements on their units.

Susan W Henderson, BSN, RN, CQIA, & Daphne C Brewington, PhD, RN, Vidant Medical Center, Greenville, NC

Nursing Surveillance and Unplanned ICU Transfers: Big Data Applications for Administrative Data

Innovation and Technology

Harness existing data from patient flow applications to apply Big Data to nursing surveillance and adverse event prevention.

Valerie Danesh, PhD, RN, CCRP, & Terry L. Jones, PhD, RN, The University of Texas at Austin, Austin, TX

C502 Fast Forward: Quality and Nurse Sensitive Indicators

Time: 10:00 a.m. - 11:00 a.m.
Location: Osceola Ballroom 4-6

Sustaining Zero CLABSI in the NICU in a Community Hospital

Practice

We have eliminated CLASBSI in our NICU for 3 years. Lessons learned will be discussed in sustaining this positive outcome.

Pat Newell-Helfant, MS, RNC, CNS, CPNP, St. Peter's Hospital, Albany, NY

Collaborative Care - Engaging the Multidisciplinary Team in Falls Prevention

Practice

Learn how to decrease inpatient falls by utilizing this innovative, evidence-based method to promote falls prevention by engaging and empowering multidisciplinary team members.

Amanda Cresswell, MSN, RN, CMSRN, & Maureen Palese, MSN, RN, Pinnacle Health System, Harrisburg, PA

C502 Fast Forward: Quality and Nurse Sensitive Indicators

Time: 10:00 a.m. - 11:00 a.m.
Location: Osceola Ballroom 4-6

Improving the Post Fall Process: A Lean Initiative

Practice

Application of lean methodology to implement an evidence-based, streamlined, and patient-centered Post Fall Huddle process that developed into a learning tool to prevent repeat falls.

Rebecca Baldwin, BSN, RN, University of North Carolina Hospital, Chapel Hill, NC

Nursing Innovation to Improve CLABSI-Central line associated blood stream infection in the vulnerable Oncology patient population

Practice

Learn about initiatives to decrease rates of central line-associated bloodstream infections in adult oncology patients using the Central Line Maintenance Bundle Plus.

Pamela A Sabatino-Holmes, MSN, ARNP, CRNI, Nursing Practice Management, Baptist Hospital of Miami, Miami, FL

C503 Innovative Teams: A Key to Improve Patient Outcomes

Time: 10:00 a.m. - 11:00 a.m.
Location: Osceola Ballroom B

Nursing Collaboration with the Multidisciplinary Team

Research

Nursing collaboration with the multidisciplinary team seeks to engage team members in enhanced communication and caring for patients and families across the lifespan.

Jessica C Lineberger, MSN, RN, & Lisa A Nichols, BSN, RN, CNML, Novant Health Huntersville Medical Center, Huntersville, NC

The Introduction of Team Care 3.0 in the Ambulatory Care Setting

Innovation and Technology

Gain insight into how an Ambulatory Care's innovative process change increased satisfaction amongst nurses while maintaining patient safety.

Bettina Laier, MSN.Ed., RN, CEN, Baptist Health South Florida, Doral, FL

CONCURRENT SESSIONS

THURSDAY, MARCH 22

C504 Technology and Advocacy: Safety and Quality in A Connected Health World

Time: 10:00 a.m. - 11:00 a.m.
Location: Osceola Ballroom 1-3

Practice

In today's fast-paced world of evolving technology, how can we support clinicians to safely and competently integrate tools into their workflow to enhance their practice?

Kelly Cochran, MS, RN, & Brooke Trainum, JD, ANA, Silver Spring

C505 Innovative Approaches to Quality Pain Management

Time: 1:15 p.m. - 2:15 p.m.
Location: Osceola Ballroom 4-6

Pain Pain Go Away: Low-Dose IV Ketamine on Medical-Surgical Units for Post-Op Pain Management for Individuals with Chronic Pain & Opioid Use

Practice

Formulate multimodal pain management practice for post-operative pain management among chronic pain and opioid tolerant patients for general care areas.

Nicole A C LaTulippe, BSN, RN, & Danielle Roth, MSN, RN, CMSRN, Mayo Clinic Hospital, Phoenix, AZ

BITE Pain Therapy: Bundling Interventions to Enhance Pain Care Quality

Research

Learn how adherence to a patient-centered, interprofessional, 6-component bundle of pain management strategies improved patients' perception of pain care quality on three surgical units.

Karen L. Rice, DNS, APRN, ACNS-BC, ANP, & Julie Castex, MSN, APRN, ACNS-BC, CMSRN, Ochsner Medical Center, New Orleans, LA

RF101 Rapid Fire Sessions

Time: 10:00 a.m. - 11:00 a.m.
Location: Poster Education Stage, Exhibit Hall C

Research

Code Team Roles: Increasing comfort levels through mock codes

Discover how a community based acute care hospital used mock codes to promote interdisciplinary team dynamics and staff's comfort levels within the various team roles.

Carrie Alfano, MS, RN-BC, CEN, & Peter J Allar, MSN, MA Public Health, RN-BC, CEN Long Island Jewish Forest Hills, Forest Hills, NY

Factors that Influence Medical-Surgical Nurse Intent to Stay

Gain insight into Medical-Surgical RN's perspective of their satisfaction with the current work environment and what factors influence intent to remain in Medical-Surgical practice.

Kathleen M Matson, DHA, MSN, RN, NE-BC Mayo Clinic, Phoenix, AZ

Work-Related Factors Predicting Sleep Quality in Nurses: A Path Analysis

Explore the direct and indirect effects of modifiable work-related variables on sleep quality in nurses.

Yuan Li, BSN, RN, West China Hospital, Sichuan University, Chengdu, China

Creating a Survivorship Care Plan (SCP) "Best Practice" Resource Guide for Women with Breast Cancer

Learn how nurses developed a person-centered resource guide to help women with breast cancer receive maximum benefit from using their Breast Cancer Survivorship Care Plan.

Dr. Judith A. Moran-Peters, DNSc, MSN, BSN, NE-BC, BC, John T. Mather Memorial Hospital, Port Jefferson, NY

Stating the Case for Population Health: School Nurses

School Nursing-focus upstream. Explore the possibilities of teaching people, not treating patients; spreading health, preventing disease.

Dr. Teena Byers B Darnell, DNP, MSN, BSN, RN, & Kathy K Hager, DNP, MSN, BSN, DNP, APRN, FNP-BC, CDE Bellarmine University, Louisville, KY

CONCURRENT SESSIONS

THURSDAY, MARCH 22

C506 Communication Innovations for Excellence

Time: 1:15 p.m. - 2:15 p.m.
Location: Osceola Ballroom A

You Say Goodbye, I say Hello: Nurse to Nurse Bedside Shift Report Implementation

Practice

Learn about Big Bang implementation of Nurse Bedside Shift Report and key strategies necessary to support this successful cultural shift to make it stick!
Jennifer Mehnert, MSN BA, RN CPN, & Michelle Kerr, ND, RN, CCRN-K, Children's Hospital Colorado, Aurora, CO

Using a "Compass Board" to Drive toward Excellence

Innovation and Technology

Utilizing manufacturing strategies for achieving daily goals in a healthcare environment through the innovative use of a Compass Board encouraged and facilitated frontline staff participation.

Dawn A Keller, MSN, APRN, CCNS, CCRN, PCCN, & Cheri J McElwee, BSN, NE-BC, Bons Secours Saint Francis Hospital, Charleston, SC

C507 Enhanced Quality thru Changes in Staffing

Time: 1:15 p.m. - 2:15 p.m.
Location: Osceola Ballroom B

Work Environment

Nurse staff led process improvement to change staffing matrix, improve quality, and decrease worked hours per unit of service in the critical care unit.

Evangeline C Thompson, MSN, RN, CNML, Swedish American Hospital, A Division of UW Health, Rockford, IL

C508 ANA's 360 Degree View of Safe Patient Handling (Panel Discussion)

Time: 1:15 p.m. - 2:15 p.m.
Location: Poster Education Stage, Exhibit Hall C

Combining SPHM, Early Mobility & Falls Prevention initiatives into one program helps remove apathy, indifference and poor compliance benefiting the patient, healthcare worker and hospital/organization.

Seun Ross, DNP, MSN, CRNP-F, NP-C, NEA-BC, & Ruth Francis, MPH, MCHES, ANA, Silver Spring, MD

C509 Hot Topics: Ethical Considerations and Resilience

Time: 1:15 p.m. - 2:15 p.m.
Location: Osceola Ballroom 1-3

A Call to Action: Exploring Moral Resilience Toward a Culture of Ethical Practice

Work Environment

The presentation will discuss the concept of moral resilience and mechanism for nurses, nurse leaders, and organizations to create a culture of ethical practice.

Liz Stokes, JD, RN, ANA, Silver Spring, MD

Resilience as the Foundation for Moral Resilience

Work Environment

Nurse resilience is a prerequisite for moral resilience and critical to improving patient and caregiver experience, and outcomes. Speakers provide a roadmap for resilience.

Christina Dempsey, MSN, MBA, RN, CNOR, CENP, FAAN, & Deirdre E Mylod, PhD, Press Ganey, South Bend, IN

CONCURRENT SESSIONS

FRIDAY, MARCH 23

**C601 Work Environment Matters:
Increasing Quality**

Time: 10:00 a.m. - 11:00 a.m.

Location: Osceola Ballroom A

**The Effect of Work-related Stress on
Positive Thinking in Acute Care Nurses**

Research

Discover how perceived work-related stress results in increased positive thinking which may have future implications for stress resiliency, nurse satisfaction, and retention.

Salena H. Tully, PhD, RN, Florida Hospital, Orlando, FL

**Hospital Work Environment of U.S.
Registered Nurses**

Research

Learn about hospital nurses' health and safety perceptions of the workplace environment as surveyed by the ANA HealthyNurse health risk appraisal.

Susan M Priano, PhD, RN, CNS, UCSF, San Francisco, CA

**C602 enABLE - Response to
Workplace Violence**

Time: 10:00 a.m. - 11:00 a.m.

Location: Osceola Ballroom 4-6

Work Environment

Learn how to create a training program including simulation and hands-on tactics that improves employee confidence and response to workplace violence when de-escalation fails.

Shauna K Anderson, MSN, RN, NE-BC, &

Robin G Brown, BSN, NE-BC, CHEP

Summa Health System-Akron Campus, Akron, OH

C603 Fast Fourward: Staffing Gems

Time: 10:00 a.m. - 11:00 a.m.

Location: Osceola Ballroom 1-3

**Journey to Managing A Nursing
Workforce**

Work Environment

Gain insight on how to manage your nursing workforce and budget.

Josephine D Bodino, DNP, MPA, RN, NEA,-BC, HN-BC,

The Valley Hospital, Ridgewood, NJ

**Findings of Multi-site Focus Groups:
Exploring Nurses Perceptions of Shift
Length**

Work Environment

Learn about the results of a focus group study on nurses perception of longer shifts.

Teresa M. Haller, MSN, MBA, RN, NEA-BC, FAAN,

University of Virginia Health System, Charlottesville, VA

**Missed Nursing Care and the Relationship
to Nurse and Hospital Characteristics**

Research

Gain insight into nurse and hospital factors associated with Missed Nursing Care and discuss implications for frontline nurses, administrators and nurse leaders.

Amanda J Hessels, PhD, MPH, RN, CIC, CPHQ, FAPIC,

Hackensack Meridian Health, Neptune, NJ

**Optimizing staffing through people,
process and technology**

Innovation and Technology

Using technology to promote better transparency for staffing and scheduling practices resulting in a better workforce management system.

Kelly Nolan, KentuckyOne Health, Louisville, KY

CONCURRENT SESSIONS

FRIDAY, MARCH 23

C604 Achieving Excellence through ANCC Programs: Pathway and Magnet

Time: 10:00 a.m. - 11:00 a.m.
Location: Osceola Ballroom B

The 2019 Magnet® Application Manual

We will share interpretations and expectations of Sources of Evidence and information about what's changed, what's stayed the same, and will share tips. Jason M Long, MSN, RN, NE-BC, Silver Spring, MD

Sustaining a Culture of Excellence

ANCC's Pathway to Excellence® Program provides an essential foundation for creating a culture of sustained excellence—a critical element for organizations thriving in this value-based industry. Patience Harris, BSN, RN, ANA, Silver Spring, MD

C605 Walking CE: The Unique Impact of the "Patient Safety Nurse" Role on Adverse Events and Loss Prevention

Time: 10:00 a.m. - 11:00 a.m.
Location: Dolphin Fountain, Mezzanine

Practice

Learn how 5 major medical centers collaborated with their malpractice carrier to develop a unique nursing role to directly impact adverse events and loss prevention.

Stacey L. Richards, MA, RN, C-OB, CPPS, Columbia University, New York, NY & Sally Urang, MS, RN, CNM, NY Presbyterian Hospital, The Allen Hospital, New York, NY

C614 Innovation Panel - The Next Steps Q&A

Time: 10:00 a.m. - 11:00 a.m.
Location: Osceola Ballroom C/D

Innovation Panel - The Next Steps Q&A

Ask more questions about processes, challenges and barriers our panel nurse innovators encountered. Learn how you too can work through these in your innovation journey.

Michele Davey, RN, Christi DeLemos, MSN, CNRN, ACNP-BC, Kristi Henderson, DNP, NP-BC, FAAN, FAEN, & Karen Tilstra, PhD, Jacqueline Anzalone, RN

RF102 Rapid Fire Sessions

Time: 11:15 a.m. - 12:15 p.m.

Location: Poster Education Stage, Exhibit Hall C

Work Environment

Brining High Reliability to the Bedside: Building a Culture of Safety

Learn how principles of High Reliability were implemented in inpatient care areas to achieve > 90% process measure reliability in all relevant HAC prevention bundles. Marjorie S McCaskey, DNP, RN, CPHQ, & Amy N Hobbs, BSN, RN, Childrens of Alabama, Birmingham, AL

Eliminating Barriers to Frontline RNs "Top of Education and Licensure" Practice

Provide insights into the findings of ANA's Professional Issues Panel focused on Eliminating Barriers to Frontline RNs practicing to the top of their licensure .

Kathy M Baker, PhD, RN, NE-BC, VCU Health System, Richmond, VA

Enhancing Ambulatory Shared Governance Performance - Tips from a Staff Nurse and Nursing Director on Keys to Success and Overcoming Barriers

This presentation will lead nurses in ambulatory based practices to an engaged RN workforce whereby front line nurses become change agents, driving excellent quality care.

Dana B Millet, MHA, RN, BSN, & Julie E Noel, BSN, RNC-NIC Medical University of South Carolina Hospital, Charleston, SC

Incivility as a Barrier to a Healthy Work Environment

Gain insight into the role incivility plays in the development of a healthy work environment for RNs in transition and nursing leadership.

Cheryl Mallory, MSN, RN-BC, Versant Holdings, LLC, St Petersburg, FL

Meal Tray/Insulin Administration: Improving Medication Safety Among Diabetic Patients

Explore initiatives to elevate patient centered care and safety with meal tray delivery and insulin administration for diabetic patients with effective evidenced based strategies.

Dr. Judith A. Moran-Peters, DNSc, MSN, BSN, NE-BC, BC, John T. Mather Memorial Hospital, Port Jefferson, NY

CONCURRENT SESSIONS

FRIDAY, MARCH 23

C606 Safe Care in the Emergency Department

Time: 11:15 a.m. - 12:15 p.m.

Location: Osceola Ballroom 4-6

A Safety Net for Diabetic Patients in the Emergency Department

Practice

A simple nurse-led, yet innovative approach, to ensuring the quantity and quality of hypoglycemic events are significantly decreased upon arrival to the emergency department.

Amy L Weaver, MHA, BSN, BA, RN, CEN, & Cary Orrick, BSN, RN, CEN

The University of Texas Southwestern Medical Center, Dallas, TX

Implementation of an Early Warning Score for Sepsis in the Emergency Department

Practice

Introduce the concept of using the early warning score to recognize sepsis and implement evidenced based protocol in an Emergency Department.

Anthony L Filippelli, MSN, RN, CEN, NE-BC, NEA-BC, & Leigh Anne Schmidt, MSN, RN NE-BC

Robert Wood Johnson Barnabas Health, New Brunswick, NJ

C607 Nursing Professional Development: Essential to Quality Care

Time: 11:15 a.m. - 12:15 p.m.

Location: Osceola Ballroom B

Strategies For Integrating the QSEN Competencies into Nursing Orientation and Continuing Education

Work Environment

Discover strategies to integrate the quality and safety competencies into nursing orientation and continuing education programs through engaging learning activities for nurses.

Gerry Altmiller, EdD, APRN, ACNS-BC,

The College of New Jersey, Ewing Township, NJ

C607 Nursing Professional Development: Essential to Quality Care

Time: 11:15 a.m. - 12:15 p.m.

Location: Osceola Ballroom B

Measuring Return on Investment for Professional Development Activities: An Evidence-Based Approach

Work Environment

Learn how you can demonstrate the value of nursing professional development in your employment setting by measuring return on investment for professional development activities.

Carol "Sue" Johnson, PhD, RN-BC, NE-BC, RN, Innovations LLC, Fort Wayne, IN, &

Debra L Liebig, MLA, BSN, RN-BC

Childrens Mercy Hospital, Kansas City, MO

C608 Nursing Leaders Driving Quality of Care

Time: 11:15 a.m. - 12:15 p.m.

Location: Osceola Ballroom A

Role of Nurse Scientists in a Large Health Care System

Research

Gain insight into the role of the Nurse Scientist and the impact they make on safety and quality outcomes.

Catherine Kleiner, PhD, RN, CNS,

Denver Health Medical Center, Castle Rock, CO, &

Dr. Cynthia A Oster, PhD, MBA, RN, APRN, ACNS-BC, ANP,

Porter Adventist Hospital, Denver, CO

Creating Leadership Bench Strength Within Your Nursing Workforce

Innovation and Technology

Explore a formalized leadership development pathway that prepares our nursing workforce to move into leadership roles throughout the institution.

Megan O'Connor, DNP, RN, NE-BC, & Stephanie Bohling, BSN, RN UNC Health Care, Hillsborough, NC

CONCURRENT SESSIONS

FRIDAY, MARCH 23

C609 Advocacy and Policy in Uncharted Waters

Time: 11:15 a.m. - 12:15 p.m.

Location: Osceola Ballroom 1-3

In these unpredictable policy and political circumstances where usual rules rarely apply, how can we maintain attention and passion of those we seek to inform/engage.

Michelle Artz, & Mary Beth Bresch White, ANA, Silver Spring, MD

C610 Quality Care using APRNs

Time: 2:15 p.m. - 3:15 p.m.

Location: Osceola Ballroom 4-6

An APRN-led Stroke Clinic's Impact on Hospital Readmissions

Practice

Understand how an APRN-led stroke clinic will help your system reduce 30 and 90-day hospital readmission rates.

Jesse V McClain, DNP, RN, APRN, CCRN, MSCN, SCRNP,
Mercy Health Youngstown, Youngstown, OH

Nurse practitioners forging the path to improvements in patient care

Practice

Explore concepts of Nurse Practitioners improving access to care while delivering patient centered, quality care.

Jody L Miniard, DNP, ACNP-BC,
Mayfield Brain and Spine, Cincinnati, OH

C611 Technology: Innovations that Make a Difference

Time: 2:15 p.m. - 3:15 p.m.

Location: Osceola Ballroom A

Using Technology to Increase Staff Engagement in Professional Practice

Innovation and Technology

Gain insight into applying technology (train-by-cell & QR coded videos) to enhance staff nurse engagement in professional governance across a large, twice-MAGNET designated health system.

Christopher E Otto, BSN, RN, CHFN, PCCN, CCRN, &
Michelle L. Collins, MSN, APN, RN-BC, ACNS-BC
Christiana Care Health System, Newark, DE

C611 Technology: Innovations that Make a Difference

Time: 2:15 p.m. - 3:15 p.m.

Location: Osceola Ballroom A

Improving Discharge Communication for Thoracic Surgery Patients Using Video and Internet Technology

Innovation and Technology

Gain insight on improving patient satisfaction through utilization of video and internet technology.

Katrine S Berg, BSN, RN, PCCN, &
Colleen E Villamin, MSN, RN, OCN, CNL,
University of Texas MD Anderson Cancer Center, Houston, TX

C612 Reducing Alarm Fatigue to Improve Patient Safety and Quality

Time: 2:15 p.m. - 3:15 p.m.

Location: Osceola Ballroom 1-3

CEASE the Sounds: Decreasing Alarm Fatigue in the ICU

Research

Session describes implementation of CEASE, an ICU nurse-driven evidence-based patient customized monitoring bundle to mitigate alarm fatigue incorporating American Association of Critical Nurses recommended guidelines.

Carmencita L Lewis, BSN, BA, RN, CCRN, &
Dr. Cynthia A Oster, PhD, MBA, RN, APRN, ACNS-BC, ANP
Porter Adventist Hospital, Denver, CO

Noise Noise Noise: Reducing Alarm Fatigue in Acute Care

Work Environment

This presentation will describe simple interventions to introduce into cardiac monitoring practice that reduced one hospital's overall alarm burden by 50%.

Michelle Artz, & Jane S Braaten, PhD, RN, CNS/ANP, CPPS,
Castle Rock Adventist Hospital-Centura Health,
Highlands Ranch, CO

CONCURRENT SESSIONS

FRIDAY, MARCH 23

C613 Staffing Challenges – Practical Solutions

Time: 2:15 p.m. - 3:15 p.m.

Location: Osceola Ballroom B

Advocating for appropriate staffing using the cost calculator

This session elucidates combining SPHM, Early Mobility & Falls Prevention initiatives into one comprehensive program to help remove apathy, indifference and poor compliance in organizations.

Seun Ross, DNP, MSN, CRNP-F, NP-C, NEA-BC, & A. Morgan, MSN, RN, NP-C, ANA, Silver Spring, MD

Enhancing the Nursing Workforce: Outcomes of a Nurse Commuter Program Work Environment

Learn about the process and outcomes of an innovative workforce solution successfully implemented that significantly increased nursing recruitment and decreased first-year turnover.

Mary Fanning, DNP, RN, FRE, NEA-BC, WVU Medicine, Morgantown, WV

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

1 Defining and Evaluating a Nursing Culture to Improve Organizational Outcomes

Work Environment

Gain insight into the statement: "It's a culture change". Learn how we evaluated our nursing culture using Nelson and Burns High Performance Programming Model (2005).

Ryann E Basiliere, MSN, RN, NE-BC,
Orlando Health, Orlando, FL

2 An Un-Isolated Incident: Protecting Staff from Cytotoxic Medications

Work Environment

Implement intervention to identify patients taking cytotoxic medications to ensure staff can have information to protect themselves with proper precautions when caring for these patients.

Kelly J Tranel, BSN, RN, CMSRN, &
Kali M Blocklinger, BSN, RN, CMSRN,
Mercy Medical Center, Dubuque, IA

3 Leadership Engagement and Retention Toolkit: Stay Interviews and Reverse Mentoring

Work Environment

Explore new strategies to improve nurse engagement and retention.

Denise E. Brennan, MSN, RN, CNL, ED, &
Nancy M Robin, MEd, BSN, RN-BC, CEN, ED
Miriam Hospital, Providence, RI

4 PTT Blood Sampling Recommendations for CCU Patients on Heparin Infusions

Research

Implement a standardized PTT blood sampling guideline for patients receiving continuous Heparin infusion therapy to help decrease re-draw rates and delay of patient care.

Nathaniel B Woods, BSN, RN, CCRN, &
Julie M Landon, BSN, RN, CCRN
University of Maryland Medical Center, Baltimore, MD

5 Red light at Night: An innovative strategy to promote sleep during hospitalization

Research

Explore the concept of implementing an innovative red light intervention to promote sleep in the hospitalized patient population.

Barb S. Trotter, BSN, CMSRN,
University of Virginia Health System, Charlottesville, VA

6 Preventing Tracheostomy Skin Injury in the Acute Care Setting

Research

Learn techniques to avoid skin injury in newly placed tracheostomies in the acute care setting through collaboration with surgeons, respiratory therapists and innovative processes.

Kathy A Cadden, MSN, RN, BSN, CNS, CCRN, Critical Care,
Providence Holy Cross Medical Center, Mission Hills, CA

7 Educational Intervention to Improve Delirium Recognition by Nurses

Research

Learn about an evidenced-based educational intervention's implementation and evaluation regarding improving medical intensive care nurses' knowledge and skill in the recognition of delirium.

Dr. Cheri Blevins, UVA Health System, Charlottesville, VA

8 The Role of Courageous Followership in Team Dynamics

Work Environment

Followership, a neglected area of team development, carries a negative connotation but the fact is that effective teams require both good leaders and good followers.

Mary K Lamonte, MSN, MPH, CNOR, CRCST,
Stamford Hospital, Stamford, CT

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

9 Standardizing Emergency Department to Inpatient Handoff Report

Work Environment

Learn about utilizing LEAN principles and standard work processes to improve the quality and safety for patient handoffs from Emergency Department to Inpatient Units.

Amy L Scott, MSN, RN, CPN, Emergency Department, & Chrissie Sobek, BSN, RN, CPN, Children's Mercy Hospital, Kansas City, MO

10 Multifocal Interventions Increase Nurse Event Reporting

Work Environment

Explore one unit's high reliability journey, generating a >600% increase in event reporting. Leave with ideas for improving safety culture in your department.

Rebekah L Friedrich, MS, RN, CCRN, CPPS, University of Maryland Medical Center, Baltimore, MD

11 Elements of Programs that Predict Retention, Intent to Stay, and the Graduate Nurse Experience

Research

Gain insight into the elements of a nurse transition-to-practice program that predict retention, intent to stay, and the graduate nurse experience.

Mary Fanning, DNP, RN, FRE, NEA-BC, WVU Medicine, Morgantown, WV

12 Using Appreciative Inquiry to Create a Nursing Professional Practice Model from the Frontline

Research

Gain insight into how appreciative inquiry captures the voice of the frontline nurse to create a meaningful professional practice model that drives excellence.

Jane S Braaten, PhD, RN, CNS/ANP, CPPS, & Wendy L Howe, BSN, RN, CMSRN Castle Rock Adventist Hospital, Castle Rock, CO

13 Nurse Resiliency in a Palliative Care & Hospice Unit

Work Environment

Explore the top ways to support your nursing staffs resiliency and create the work environment you always wanted!

Kim T Belton, MSN, APN, FNP-C, CCRN-K, & Brandee A Fetherman, MSN, RN, CCRN, SCRNP, Morristown Medical Center, Morristown, NJ

14 Psychometric Evaluation of the Moral Comfort Questionnaire among Acute Care Staff Nurses: A Pilot Study

Research

Explore the concept of moral comfort in nursing by testing a new instrument: Moral Comfort Questionnaire.

Natalie Bermudez, MSN, RN PCCN, Florida Atlantic University, Boca Raton, FL

15 Healthy Environment, Healthy Nurse: Creating and Sustaining a Healthy Work Environment in the CTICU

Work Environment

Gain insight into establishing and sustaining a Healthy Work Environment based on the AACN's six essential standards for healthy work environments.

Catherine S Shuford, BSN, RN, CCRN, Duke University Hospital, Durham, NC

16 Helping Nurses Achieve the Objectives for Early Mobility

Work Environment

Evidence exists on early mobility for improving outcomes, however, this places demands on nurses, learn how to reduce risk and enhance early mobility.

Dr. Guy A Fragala, PhD, PE, CSP, CSPHP, Patient Safety Center or Inquiry, The Villages, FL

17 Empowering Night Shift Clinicians as Engaged Leaders

Work Environment

Learn what has worked while gaining insight on how to empower night shift clinicians as engaged leaders!

Kris L Blackstone, BSN, RN, CCRN, University of Virginia Health System, Charlottesville, VA

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

18 Nurses' Cultural Competence and Patient Satisfaction

Research

Learn about a new approach to enhancing patient experience with care.

Dr. Mary Kutash, PhD, ARNP, &
Jacqueline M Ketchman, MSN, RN CVRN-BC,
Tampa General Hospital, Tampa, FL

19 Nurses' Cultural Competence and Patient Satisfaction

Work Environment

Improving ED operations using scientific methodology and a multidisciplinary team.

Jennifer L Zeplin, MSN, MPA, RN, & Helena Willis, MBA, RN, CEN
Long Island Jewish Medical Center Northwell Health,
New Hyde Park, NY

20 Collaboration between Nurses and the Multidisciplinary Team to Improve Patient Outcomes in the Surgical Patient

Work Environment

Gain insight into the importance of collaborative relationships between nurses and the multidisciplinary teams when caring for surgical patients.

Linda M Valenti, MSN/MBA/HCA, RN, ASQ, LSSBB, &
Mary F Buddle, Associates Degree, RN
Cooper University Hospital, Voorhees, NJ

21 Utilizing Time-Referenced Metrics to Describe and Evaluate Nursing Practice

Research

Explore how data that is time-referenced can be utilized to describe and evaluate nursing practice.

Catherine Kleiner, PhD, RN, CNS, &
John M. Welton, PhD, RN, FAAN
University of Colorado, Aurora, CO

22 Evolution of an Interprofessional Shared Governance Model

Work Environment

Learn about our journey to an Interprofessional Shared Governance Model.

Eileen Bersick, PhD, RN, NE-BC, & David F Rivera, MSN, FNP-BC,
The Valley Hospital, Ridgewood, NJ

23 Neonatal Hypothermia and Associated Factors among Newborn Admitted to Neonatal Intensive Care Unit of Hospitals in Addis Ababa, Ethiopia

Research

This paper will help for the improvement of Nursing care.

Birhanu W Demissie, MSc.in Pediatric Health Nursing, BSc. in Nursing, RN, Wolaita Sodo University, Wolaita Sodo, Ethiopia

24 Alarm Fatigue in a Single Patient Room Neonatal Intensive Care Unit (NICU)

Work Environment

Learn how nurses identified the patient safety hazard alarm fatigue in NICU, and how implemented changes reduced fatigue and improved nurse satisfaction and patient safety.

Colette V Benincasa, BSN, RNC-NPT, &
Kathleen A. Bailey, BSN, RN, Akron Children's Hospital, Akron, OH

25 The Creation of an Admission Team to Improve Missed Nursing Care, Workload, & Hand-off

Work Environment

Our presentation shares insight on the creation of an Admission Team along with improved missed nursing care, patient safety, and the quality of care provided.

Klary C Carothers, BSN, RN PCCN,
Baptist Hospital, Miami, FL

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

26 Cancer prevention: protecting the "herd" from vaccine hesitancy with early HPV vaccination.

Research

Gain insight into cancer prevention with vaccination; using a nurses' self-efficacy against vaccine hesitancy to prevent disease.

Carolann Risley, MSN, RN, WHNP, University of Mississippi Medical Center, Jackson, MS

27 Shared Governance for Nursing Education

Work Environment

CON used principles present in magnet organizations to transition from a hierarchal paternalistic structure to a shared governance model.

Weierbach M Florence, PhD, MPH, RN, & Jo-Ann S Marrs, EdD, MSN, RN, FNP, CNE, PMHS, East Tennessee State University, Johnson City, TN

28 An Interprofessional Collaborative to Promote Quality End-of-Life Care in a Rural Long-term Care Facility

Research

Explore how interprofessional partnerships in rural communities can be used to explore barriers and catalysts to quality end-of-life care in long term care.

Dr. Katherine A Hinderer, PhD, RN, CCRN-K, CNE, Salisbury University, Salisbury, MD

29 The Use of a Zen Den and the Reduction of Stress in RNs: A Pilot Study

Work Environment

Gain insight on use of a relaxation room to decrease stress for nurses.

Josephine D Bodino, DNP, MPA, RN, NEA,-BC, HN-BC, The Valley Hospital, Ridgewood, NJ

30 An Exploration of the Association of Patient Characteristics and Pharmacological Treatments to Inpatient Falls among Patients At-risk for Falling during Hospitalization

Research

Gain additional insight on patient characteristics and pharmacological treatments that increases patient's risk for falling during hospitalization.

Julie David, MSN, ARNP, ANP-BC, Homestead Hospital, Homestead, FL

31 The Effect of RN Implicit Bias on Pain Outcomes in the Emergency Department

Research

Study to determine effect of RN implicit bias as measured by Implicit Association Test on pain outcomes in an urban university hospital Emergency Department.

Deborah A Rothhaar, MSN, RN, NEA-BC, UCLA Health, Los Angeles, CA

32 Three's Company in New Graduate Orientation

Work Environment

Explore a new approach to mentoring and training new graduate nurses to improve participant confidence and expertise when faced with limited resources.

Megan O'Connor, DNP, RN, NE-BC, UNC Health Care, Hillsborough, NC

33 Driving towards a Healthy Work Environment: Putting Front Line Staff in the Driver's Seat

Work Environment

Learn about the positive effects of the changes that happen when the front line staff are in the drivers seat!

Lindsay Boyd, MS, RN, Overlake Hospital Medical Center, Bellevue, WA

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

34 Clinical Faculty Bootcamp: Transition from Expert Bedside Nurse to Novice Clinical Nursing Faculty

Research

The purpose of the Clinical Faculty Development Bootcamp is to support nursing faculty to gain competency as they transition to an educator role.

Kimberly N Dunker, DNP, RN, &
Karen Manning, MSN, RN, CRRN, CHPN
Laboure College, Milton, MA

35 Leading the Way to Become the First Beacon Float Unit

Work Environment

Learn about how to transform your float pool into a Beacon award unit.

Beth M Humphries, MSN, CNML, VCU Health, Richmond, VA

36 Hospital to Home: Family Caregiver Perspectives of Discharge Transitions of Seniors with Dementia

Research

Gain insight into what helps and hinders the hospital discharge process for seniors with dementia from the family caregiver perspective.

Ellen E Martin, PhD, CPHQ, Texas Nurses Association, Austin, TX

37 Implementation of Standardized Debriefings after High Risk Cardiac Transfers

Work Environment

Explore application and utilization of debriefs after high risk transfers from med-surg to an ICU setting.

Megan Jensen, MSN, RN, CPNP,
Childrens Mercy Kansas City, Kansas City, MO

38 Clinical Nurse Leadership Competency in Operating Room Nurses

Research

This research provides insight into sentinel event root cause analysis of leadership skills in the operating room environment.

Michelle L Slater, DNP, RN, CNOR,
Veterans Administration, Cleveland, OH

39 The ICU Diary a Tool to Recovery for Patients Who Have Survived a Critical Illness

Research

Gain insight as to how the ICU Diary provides a patient a better understanding of what happened to them while critically ill in the ICU.

Judy J Martin Morgan, MSN, RN,
J Martin Coaching & Consulting Hypnotist, Denton, TX

40 Individualizing a Learning Plan to Facilitate the Transition of Novice Nurse Practitioner into Practice

Practice

Determine optimal methods to identify learning gaps and facilitate the transition of novice nurse practitioners into practice.

Marci Farquhar-Snow, MN, RN, CCRN, CMC, ACNP-BC, AACC,
Mayo clinic, Phoenix, AZ

41 Using Patient Workload Requirements to Drive Staffing

Innovation and Technology

Explore challenges related to staffing in healthcare and examine the use of a patient workload system to streamline and improve staffing decisions.

Brianna Zink, BSN, RN, &
Danielle K Miller, MSN, PhD (c), RNC-OB, C-EFB,
Infor Healthcare, New York, NY

42 Achieving Process Improvement: A Nursing and Technology Partnership

Innovation and Technology

Collaborate with technology for process improvement.

Carmen J Sierra, DNP, MBA, RN, CNOR,
Jackson Memorial Hospital, Miami, FL

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

43 Fostering Family Centered Care in Critical Care : Utilizing Virtual Rounding in the Neonatal Intensive Care Unit

Innovation and Technology

Assimilate how family participation in virtual rounds can impact coordination of patient care in the neonatal intensive care unit.

Tara L Flood, MSN, RN CBC, Thomas Jefferson University , Jefferson College of Nursing, Philadelphia, PA

44 C-Difference in Our Care Practice

Explored concepts of interdisciplinary collaboration and implementing evidence-based initiatives to decrease Clostridium difficile rates.

Korinne Muntz, BSN, RN, CCRN
Christiana Care Health Services, Newark, DE

45 Nurse Case Managers are a Key to Success in Bundled Payment Episode Management

Innovation and Technology

Gain insight into how nurses, as case managers, can have a significant impact in episode management to drive quality, patient-centered care through value-based care innovation.

Mary Beth Faucheux, MSN, RN, CCM, & Christine Samples, BSN, RN, CCM
Signature Medical Group, St. Louis, MO

46 Improving Communication One App at a Time

Innovation and Technology

Learn about improving unit engagement and communication utilizing the new application WhatsApp.

Ilana C Sheinberg, MSN, RN-BC, PCCRN, & Deodat Baichulall, MSN, RN-BC,
New York-Presbyterian Hospital, New York, NY

47 Improving Quality of Care Through Collaborative Pain Management and Standardization

Innovation and Technology

Understand how a multidisciplinary approach in combination with electronic health record workflow enhancement can improve patient, nurse and provider experience.

Melinda V Rosseland, MSN, RN, & Keith Kline, BSN, BFA, RN,
Cooper University Hospital, Camden, NJ

48 The Bedflow Charge Nurse Role

Innovation and Technology

We want to share the immense benefits of our charge nurse model with other busy/acute units and service lines.

Philip Parker, BSN, RN, CCRN-CSC, & Gilbert Rutledge, BSN, RN, CCRN
Duke University Hospital, Durham, NC

49 Telecare support staffed with Advance Practice Nurses working in Remote Patient Management

Innovation and Technology

Learn about Remote Patient Management and telecare services available at Norton Healthcare.

Shirl D Johnson, DNP, APRN, CNS, MSA, Black Belt,
Norton Healthcare, Louisville, KY

50 Providing Patient-centered Care Through Technology: Pain, Preferences, Languages, and Advanced Care Planning.

Innovation and Technology

Gain insight on the use of technology to enhance communication between patients and providers. Facilitated communication supports patient empowerment and results in shared decision-making.

Dr. Rebecca S Koszalinski, PhD, RN, CRRN, CMSRN,
University of Tennessee-Knoxville, Knoxville, TN

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

51 Evidence-Based catheter-associated urinary tract infection prevention processes to improve nurses' knowledge & documentation practice

Practice

Explore evidenced-based concepts to increase nurses' knowledge related to catheter-associated urinary tract infection (CAUTI) prevention and documentation compliance in the electronic medical record.

Kerlene T Richards, DNP, RN CCRN, &
Michelle v Osborne, DNP, RN, CNN, NE-BC
Northwell Health Long Island Jewish Valley Stream,
Valley Stream, NY

52 Improving Nurse Documentation of Non-pharmacological Venous Thromboembolism Prophylaxis using the Kamishibai Audit Tool

Practice

To gain insight & increase compliance of non-pharmacological Venous Thromboembolism prophylaxis by proper documentation of Sequential Compression Devices through the use of the Kamishibai Board.

Euniqua N Bullock, MSN, RN, CEN, RN-BC,
The University of North Carolina at Chapel Hill (UNC),
Chapel Hill, NC

53 Animal-assisted interventions in a prelicensure nursing program: Innovative patient-centered care

Innovation and Technology

Gain insight into how the integration of animal assisted interventions in a prelicensure nursing program plays a role in patient-centered care and improves care delivery.

Dr. Juliann S Perdue, DNP, RN, FNP,
California Baptist University, Riverside, CA

54 Transitioning: Improving Care for Transgender Patients in the Emergency Department

Practice

Learn how to improve the cultural competence of emergency department staff in caring for the complex needs of the transgender population.

Nancy M Robin, MEd, BSN, RN-BC, CEN, ED, &
Denise E. Brennan, MSN, RN, CNL, ED
Miriam Hospital, Providence, RI

55 ABCDE Approach To Learning In The Patient Care Setting.

Innovation and Technology

Tired of cut and pasted care plans? Learn a new way to clinically teach that students support, enhances learning and critical thinking and useful interdisciplinarily.

Cynthia Chernecky, PhD, RN, AOCN, FAAN,
Augusta University, Augusta, GA

56 The "Nurse's Station", A Website for Quick Access to Nursing Solutions

Innovation and Technology

Join us at the "Nurse's" Station", a click of a button takes you to a customized webpage that brings all things nursing to your fingertips.

Suzanne Killian, MHA, RN, Charles George VAMC, Asheville, NC

57 Implementing best practice recommendations by rotating peripheral venous catheters upon clinical indication

Practice

Learn about the way Salem Health implemented new evidence-based practice at their organization by rotating peripheral venous catheters upon clinical indication.

Ellie K Barnhart, MSN, RN, PCCN, Salem Health, Salem, OR

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

58 Cardiac Emergencies: Cultivating a First Responder Team

Innovation and Technology

Develop interdisciplinary education via high fidelity simulation to promote quick response times and improve team performance.

Tricia Shustock, BSN, RN, PCCN, Cardiothoracic Surgery, & Nancy c Findley, MSN, RN, AGCNS-BC, PCCN
Hospital of the University of Pennsylvania, Philadelphia, PA

59 Sleep Promotion and Noise Reduction Using Evidence Based Practice and A3 Thinking

Practice

Learn evidence-based approaches and solutions for promoting sleep and reducing noise for adult patients on medicine acute care units to improve patient care.

Turkeisha S. Brown, MSN, RN, NE-BC, & Pamela R. Ball, BSN, RN, NE-BC, UNC Healthcare, Chapel Hill, NC

60 The effectiveness of self-management intervention program for bowel symptoms in rectal cancer patients after SPS:a feasibility study

Innovation and Technology

Explore the effectiveness of a self-management intervention program for the management of bowel symptoms after shincter preserving surgery in Chinese rectal cancer patients.

Dong Pang, PHD, RN,
Peking University School of Nursing, Beijing, China

61 Graduated Compression Stockings (GCS): A Quality Improvement Project on a Medical Surgical Inpatient Unit

Practice

Learn how an inpatient Medical Surgical unit implemented best practices for reducing hospital acquired pressure injuries related to medical devices.

Ashley J Tenison, MSN, RN, CMSRN, & Christine D. Aliory, MSN, RN, ONC, CURN
Mayo Clinic Hospital, Phoenix, AZ

62 Opioid Fighters

Practice

Gain insight about how to best prevent harm related to opioid administration

Edward Meyer, MSN, RN-BC,
New York-Presbyterian Hudson Valley Hospital,
Cortlandt Manor, NY

63 Reducing Door-to-Needle Times for Thrombolytic Therapy Administration in Acute Ischemic Stroke: A Quality Improvement Initiative

Practice

The presentation explores effective use of improvement methodologies in achieving a highly reliable processes and consistent performance to standards.

Corazon R Paraso, MS FNP, RN, CCRN, NE-BC,
Northwell Health Huntington Hospital, Huntington, NY

64 Pre and Postoperative Noninvasive Nursing Interventions to Decrease Pulmonary Complications in the Acute Care Setting

Practice

Learn about the latest evidence, clinical guidelines and an implementation action plan to decrease postoperative pulmonary complications in the surgical patient.

Leonarda M Gaige, RN, RN, CMSRN, FNP MSN Student,
Lakeland Regional Health, Lakeland, FL

65 Improving Collaboration and Patient Safety at High-Risk Deliveries

Practice

Learn about one organization's experience in interdisciplinary collaboration to improve communication and enhance safety and customer service during high-risk deliveries and NICU transfers.

Audrey Barnett, MSN, RNC-NIC, CPHQ, & Faran Bagley, BSN, RNC-NIC,
Children's Memorial Hermann Hospital, Houston, TX

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

66 Clinical Impact Nurses (CIN) Decreases Time to Emergent Medication Administration during Rapid Responses and Code Blues

Practice

Identify how CIN performing Intraosseous Vascular (IO) Access during critical situations shorten time to emergent medication administration increasing patient's chance for survival and decreasing mortality.

Nancy Delassalle, BSN, RN, CCRN, EMT, &

Lee G Castro, MBA, BSN, CCRN

Northwell Health - Long Island Jewish Medical Center, New Hyde Park, NY

67 Paving The Way: Breaking Ground in Preventing IV Infiltrates

Practice

Nurses will explore key concepts related to IV infiltrate prevention through quality improvement innovations, evidence-based practice, and interdisciplinary team collaboration approach to improve patient outcomes.

Monica Weeks, BSN, RN

Children's Hospital of the King's Daughters, Norfolk, VA

68 Increasing Awareness of BMI Screening in a Primary Care Setting

Practice

Learn about screening tools to identify obesity in the primary care clinic to promote a positive change in how providers identify and manage obesity.

Kim M Lange, DNP, RN FNP BC, Metairie, LA

69 Nurses Perceptions on Caring Behaviors

Practice

Gain insight into how nurses perception of caring is effected when utilizing measures to personalize patient care.

Milana Kaylokova, BSN, RN-BC, &

Svetlana Karshigeyeva, MSN, RN, FNP

Long Island Jewish Medical Center -Northwell Health, New Hyde Park, NY

70 We "CAUTI" a Problem!

Practice

Learn about best practice in the prevention of Catheter Associated Urinary tract Infection on a heart failure unit

Dr. Monette Mabolo, MSN, MBA, RN, NEA-BC,

Moses Cone Memorial Hospital, GREENSBORO, NC

71 Collaboration Essential to Reducing Labeling Errors in the ED

Innovation and Technology

Clinical nurse engagement in process design prompted improved patient safety and efficiencies in clinical care during implementation of specimen bar-code scanning technology.

Jan Phillips, DNP, MSN, BSN, RN, CENP, &

Kathleen Lake, MPH, BSN, RN

Penn State Milton S. Hershey Medical Center, Hershey, PA

72 Innovative End-to-End Care for Joint Patients

Innovation and Technology

Learn about how a community hospital developed an innovative multi-disciplinary end-to-end care process for joint patients and reducing hip and knee arthroplasty surgical infections.

Rowena Chona O Sano, MSN, BSChE, RN, CNL, CPHQ,

CQA(ASQ), CLSSBB, & Caroline R Kihunah, MSN, RN, BC

Memorial Hermann Greater Heights Hospital, Houston, TX

73 Changing the Focus of Nursing Orientation

Innovation and Technology

Explore innovative changes to Nursing Orientation designed to support new graduate nurses in the first year of practice with a focus on improving retention.

Cynthia S Cohen, DNP, RN, CNL, RN-BC,

Catholic Medical Center, Manchester, NH

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

74 Using Technology to Facilitate a More Predictable Work Environment While Improving Patient Outcomes in the Bariatric Surgery Population

Innovation and Technology

Explore how this widely available tool will improve patient outcomes while making the bedside nurses' days more efficient and predictable.

Liesel-Marie E Granada, MSN, BS, RN-BC, &
Dawn M Stepnowski, DNP, APN-C, RN, NEA-BC, CBN
Cooper University Health Care, Camden, NJ

75 When moments matter: Accessing Clinical Resources

Innovation and Technology

Learn how an academic medical center's partnership between nursing shared governance and IT improved intranet search functionality and access to practice-guiding resources.

C. Michelle Longley, MSN, RN, GNP,
University of Virginia Health System, Charlottesville, VA

76 The Vest is up to You - Using Technology to Prevent Falls

Innovation and Technology

Learn how the use of technology can assist as part of a fall prevention strategy.

Jennifer Berry, MSN, RN, CNRN, Mayo Clinic Hospital, Phoenix, AZ
& Dee Kumpar, MBA, BSN, CSPHP, Hill-Rom, Freeland, MI

77 CLABSI: We strive for zero- Innovative way of using technology to achieve dramatic decrease in CLABSI rates

Innovation and Technology

Daily surveillance of central venous catheters using iPad app we were able to eliminate all CLABSIs in the last six months.

Christopher Ensign, MSN, CNL CRNI,
AMITA Adventist Medical Center - La Grange, Lagrange, IL

78 Synopsis in the Electronic Medical Record: Recapturing the Apheresis Patient Story

Innovation and Technology

This presentation will demonstrate how to combine nursing and physician documentation in an easily view report.

Tomas Armendariz Jr., BSN, RN, CMSRN,
UT Southwestern Medical Center Zale Campus, Dallas, TX

79 What Do Pressure Ulcer Prevention Programs and Skin Have in Common? A Multidisciplinary Approach to Documentation Improvements

Innovation and Technology

Learn about a hospital's task to provide improved electronic documentation for nursing staff with ultimate goal of improving patient care and prevention of pressure injuries.

Emily Flahaven, MSN, BSN, RN CAHIMS,
UT Southwestern at Clement University Hospital, Dallas, TX

80 Easy as 1, 2, 3: Development of a Patient Referral Center

Innovation and Technology

An interdisciplinary team has worked to streamline the process for patient hospital admits.

Lesley M Tilley, MSN, RN, NE-BC,
Franciscan Missionaries of Our Lady Health System,
Baton Rouge, LA

81 Reducing hospital-acquired pressure ulcers using bundle methodology in children on ECMO

Innovation and Technology

Learn innovative strategies to implement interprofessional bundle methodology to prevent hospital-acquired pressure ulcers in infants and children on ECMO, including a movement tolerance table.

Suzanne Courtwright, MSN, APRN-C,
New York Presbyterian, New York, NY

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

82 Hospital Discharge Team Improves Discharge Process Efficiency

Innovation and Technology

Learn about an innovative discharge program, which uses existing resources with a nurse-led interdisciplinary team to improve patient-centered care.

Xia Thao, ADN, CMSRN, & Linda Thao, ADN, RN, UC Davis Medical Center, Sacramento, CA

83 Making a Mentoring Match: Advancing the Profession Through Technology

Innovation and Technology

Learn about one organization's mentoring program that provides an avenue for nurses from different geographical backgrounds to stay connected and provide support.

Matthew S Howard, MSN, RN, CEN, CPEN, CPN, Eskenazi Health, Indianapolis, IN & Lois S Marshall, PhD, RN, Nurse Education Consultant, Miami, FL

84 An Emergency Department's Role Reducing Door-to-Needle Times for Acute Ischemic Stroke in a Community-Based Comprehensive Stroke Center

Innovation and Technology

Learn about an Emergency's Room initiatives in reducing their door to needle times and the drastic drops in times.

Martha Tijerino, MSN, RN, MSN, SCRNP, & Brenda B Rojas, BSN, SCRNP, Baptist Health Hospital, Miami, FL

85 Implementation of a Diabetic Foot Exam Tool in a Rural, Mobile Primary Care Clinic

Practice

This quality improvement study showed 68% increase in provider-documented foot exams in patients with Type 2 Diabetes Mellitus reducing foot ulcers and lower extremity amputations.

Lizanne M Elliott, DNP, MSN, RN, FNP-BC, University of TN Knoxville, Knoxville, TN

86 Dressing Choice Post Total Hip and Knee Arthroplasty: Making an Impact on Patient Outcomes and Cost

Practice

Gain insight into how dressing choice after total hip and knee arthroplasty can help prevent infection and other wound complications.

Carrie M Knaub, BSN, RN ONC, & Susan Ludwig, BSN, RN, ONC WellSpan Surgery and Rehabilitation Hospital, York, PA

87 Beyond the Bundle: A Interdisciplinary Approach to CLABSI Prevention

Practice

Discover strategies to engage an interdisciplinary team to decrease central line associated blood stream infections and enhance patient care.

Heather E Pena, BSN, RN, CCRN-CSC, & Rachel Jordan, MS, BSN, ACNP, RN, CCRN Duke Health System, Durham, NC

88 Nurses Strive To Increase Colorectal Cancer Screening

Practice

Improving colorectal cancer screening rates through nurse-led, interdisciplinary team-based interventions.

Jessica M Deaton, BSN, RN, & Kelli D. Guinn, BSN, RN, Oklahoma City Indian Clinic, Oklahoma City, OK

89 Blood Conservation Strategies in the Adult Inpatient Oncology Population

Practice

Learn about using the push-pull method and minimal blood volume for laboratory tubes to decrease the incidence of hospital acquired anemia.

Lea Rodningen, BSN, OCN, CRNI, Poudre Valley Hospital, Fort Collins, CO

90 C.Diff: Get the Real Scoop

Practice

Gain insight on how one organization decreased C.Diff rates by nearly 70% through a multidisciplinary team approach including a nurse driven protocol.

Julie L Swann, MBA, MHA, BSN, RN, NEA-BC Emory Saint Joseph's Hospital, Atlanta, GA

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

91 Breaking the Chain of Infection: An Interprofessional Collaborative Approach to Reducing Clostridium difficile

Practice

Understanding the importance of interprofessional collaboration to reduce hospital acquired clostridium HAI C diff.

Deborah R Toresco, BSN, RNC-OB, NE-BC,
Overlook Medical Center, Summit, NJ

92 Surgical Services Interdepartmental Bedside Shift Report Tool

Practice

Gain insight into improving communication, collaboration and patient safety within the surgical services area with a specific targeted bedside shift report tool.

Pamela N Germinaro, BSN, RN,
New York Presbyterian Hudson Valley Hospital, Cortlandt, NY

93 A Population health Response to Alleviate infant Mortality (PRAM)

Practice

Pram targets the main etiologies of infant mortality: prematurity, racial disparities, unsafe sleep and contributing factors in our population: vopiate dependency and low breastfeeding.

Karen Y Frantz, BSN, RNC,
Summa Health System, Akron, OH

94 Reducing Pressure Injuries in the PICU Practice

Developed and standardized a pressure injury prevention bundle to decrease hospital acquired pressure injury rates in the Pediatric Intensive Care Unit.

Xoana G Zampieri, BSN, RN, WCC, CPN, CWCN, &
Ginel Capdevila, MSN, ARNP, PPCNP-BC, CPN
Nicklaus Children's Hospital, Miami, FL

95 Collaborative Communication: The Writing is on the Wall

Practice

Learn about ways to maximizing safe and collaborative family and patient centered care.

Lida Rahimi, MHA, BSN, RN, CCRN, CN III,
New York Presbyterian Hospital, Flushing, NY

96 Bridging the Practice Gap: Creating a Nurse Associate Externship Program Which Promotes Role Transition Focused on Quality and Safety

Practice

Explore a nurse extern program that addresses quality and safety performance of graduate nurses by improving confidence with inter-professional communication and advocacy.

Jeanne M. Henry, MEd, BSN, RN,
Cleveland Clinic Health System, Mayfield Heights, OH

97 Peaceful Night Quiet Campaign

Practice

Learn how a 4 time Magnet Designated Community Hospital improved their patient satisfaction scores related to noise levels by implementing the Peaceful Night Quiet Campaign.

Shanell Blanchard, BSN, RN, OCN, & Dina Anderson, BSN, RN
Northwell Health at Huntington Hospital, Huntington, NY

98 Clinically Aligned Pain Assessment Pilot Study

Practice

Learn about how the Clinically Aligned Pain Assessment can be used in the acute care setting to assess pain and improve communication with your patient.

Juia Twining, MSN, RN, OCN, The Miriam Hospital, Providence, RI

99 One Size Doesn't Fit All: Preventing Falls in Behavioral Health Patients

Practice

Gain insight on the development and implementation of population-specific fall prevention strategies for behavioral health patients.

Stephanie Ocker, BSN, RN-BC, & Norma J Bollinger, MSN, RN
Meritus Medical Center, Hagerstown, MD

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

100 Improving IV Infusion Medication Safety through Failure Mode and Effects Analysis

Practice

Gain insight into the use of failure mode and effects analysis to improve the use of IV medication safety software and reduce programming errors.

Heather Ridenour, AA, RN, & Melissa S Sestak, MSN, RN, CCRN
Meritus Medical Center, Hagerstown, MD

101 Quality Improvement Through Improved Documentation

Practice

Explore how an Emergency Department face unique documentation challenges in an intense setting with rapid turnover of patients.

Kenneth Lobe, BSN, RN,
Swedish Medical Center - Ballard Campus, Seattle, WA

102 Could that plagiocephaly really be craniosynostosis?

Practice

Learn about plagiocephaly, craniosynostosis and torticollis risk factors and AAP recommendations; a quick method to screen for head/neck asymmetry; and why early intervention is critical.

Laura C Steinmann, ADN, RN,
Steinmann Prosthetics and Orthotics, Las Cruces, NM

103 The Utilization of Intentional Rounding in a Medical Psychiatric Unit to Decrease the Incidence of Patient Falls

Practice

Review the evidence base for rounding, and discuss the process of adopting intentional rounding in a Medical Psychiatric unit of the Mayo Clinic.

Maria V Lazaro-Elemos, BSN, CNRN, RN-BC,
Mayo Clinic - Rochester, Rochester, MN

104 Implementation of Evidence-Based Care: Health Promotion for Patients at Risk for or Diagnosed with Diabetes

Practice

Evidence-based health promotion for patients at risk for or diagnosed with diabetes in a rural clinic enables change in practice.

Holly S Delatte, MSN, APRN, FNP-C,
Reddy Family Medical Clinic, Pierre Part, LA

105 Decreasing Same Day Cancellations in the Gastroenterology Department Utilizing the Teach-Back Method

Practice

Educating patients using the teach-back method will decrease same day cancellations in the Gastroenterology Department.

Barbara A Dellert, BSN, RN, UPMC St. Margaret, Pittsburgh, PA

106 Continuous Infusion Medication Safety in a Pediatric Intensive Care Unit

Practice

Gain insight from using quality improvement methodologies to increase the percentage of continuous intravenous medications matching the current order to eliminate adverse drug events.

Ashley B Ried, MMHC, BSN, RN,
Monroe Carell Jr. Children's Hospital at Vanderbilt, Nashville, TN

107 Using an ICU Transport Team to Reduce Adverse Events, Stabilize Staffing and Improve Workplace Stress

Practice

Learn how a specialized ICU transport team can promote patient safety while improving both the quality of nursing care and the nursing work environment.

Richard L Gustin, MS, RN, CCRN, PCCN, &
Emily K Valcin, MSN, RN, CCRN, NEA-BC
University of Rochester Medical Center, Rochester, NY

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

108 Assessment of Knowledge Retention of Cardiac Rhythm Interpretation Skills

Practice

Evaluate the ability of critical care and emergency room nurses with varying levels of experience to interpret arrhythmia strips following standardized online annual competency testing.

Shawn Cosper, MSN, RN, NP, RN,
Brookwood Baptist Medical Center, Birmingham, AL

109 Time Is Brain. Utilizing Designated Stroke Stretcher to Achieve Quality Patient Outcomes

Practice

Learn about how we decreased our door to ivT-PA times by utilizing a dedicated stroke stretcher at ambulance triage.

Carolyn J Wiltshire, MSN, FNP, Northwell Health, Valley Stream, NY

110 Restraint Elimination: A Nurse Driven Initiative for Standardizing Quality Care Across Campuses

Practice

Gain insight into a nurse-driven restraint elimination initiative that utilizes leadership support, education, and interprofessional collaboration to improve quality outcomes.

Lauren M Murphy, MSN, RN, ACNS-BC,
Geisinger Wyoming Valley Medical Center, Wilkes-Barre, PA
& Michael D Cola, BSN, RN, CCRN,
Geisinger Community Medical Center, Scranton, PA

111 The Fast and the Furious: One Hospital's Race to Improve Observation Length of Stay

Practice

Describe the implementation of our evidence-based process for improving length of stay in adult observation patients.

Misty Ramirez, BSN, RN, RN-BC,
Memorial Hermann Northeast Hospital, Humble, TX

112 Taking the pressure Out of Wound Care

Practice

Challenge accepted. Decrease the number of Hospital Acquired Pressure Injuries without a certified wound care nurse in the facility.

Joan Creighton, BSN, RN, & Monica Metri, DPT, WCC
Long Island Jewish Valley Stream, Valley Stream, NY

113 Implementing Peer to Peer Accountability to Improve Compliance with the Cardiac Rehabilitation Referral Process

Practice

Describe the process by which we implemented Peer to Peer Accountability to increase compliance with the Cardiac Rehabilitation Referral process.

Sandi Barnes, BSN, RN
Memorial Hermann Northeast Hospital, Humble, TX

114 Ask them all: Self-report universal prenatal substance use screening

Practice

Gain insight into the effectiveness of universal screening using a direct approach for self-reporting of substance use in pregnancy.

Dr. Kathleen Elertson, DNP, RN APNP CPNP FNP-BC, &
Catherine A Schmitt, PhD, RN CNOR(E)
University of Wisconsin, Oshkosh, WI

115 Reducing Pressure Injuries Associated with Non-invasive Ventilation

Practice

Learn tactics to decrease hospital-acquired pressure injuries associated with non-invasive ventilation oxygen masks.

Munawer Kermalli, MBA, BS/BA, & Stacy Davis, BSN, RN, CCRN
Lehigh Valley Health Network, Allentown, PA

116 SICU Airway Emergent Taskforce: SAT/SBT Process Group

Practice

Learn about our QI airway safety project.

Nora Dunlap, MS, CRNP, & Kaitlyn M Singlemann, MSN,
AG/ACNP-BC, AG/AC CNS-BC, CRNP, CCRN
University of Maryland Medical Center, Baltimore, MD

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

117 Get out of my way and let me practice: Closing the academic practice gap

Practice

Build an innovative academic-to-practice model that minimizes risk of harm to patients while improving system effectiveness and individual nursing performance.

Ronda K LaVigne, MHA, BSN, RN, NE-BC, &
Susan R Mahoney, MS, BSN, RN, NE-BC
Galen Center for Professional Development, Louisville, KY

118 Implementation of an Evidence-Based Multidisciplinary Rounds Process to Improve Length of Stay in CHF Patients

Practice

Learn about how we implemented an evidence-based, collaborative multidisciplinary rounds process to improve length of stay in our congestive heart failure patients.

Christi A Sterling, BSN, RN, ACM-RN
Memorial Hermann Northeast Hospital, Humble, TX

119 Interdisciplinary redesign of processes to increase discharge home after lower extremity joint replacement

Practice

To describe successes and challenges of redesigning care to support bundled care of joint replacement patients and discharge to home metrics.

Dr. Sally O Gerard, DNP, RN, CDE, CNL,
Fairfield University, Fairfield, CT

120 A Patient-centered Approach to Clinical Training in Population Health and Disease Management Education for Nursing Students

Practice

Analyze strategies to deliver care using a new model that seeks to provide competency-based chronic disease management training for pre-licensure nursing students.

Dr. Natasha McClure, DNP, RN, PNP-PC,
Vanderbilt University School of Nursing, Nashville, TN

121 Sepsis Education for Providers to Subsequently Improve Survival

Practice

Learn about the new sepsis guidelines and how it impacts nursing/patient outcomes.

Nimeet Kapoor, BSN, RN, CCRN
University of Maryland Medical Center, Baltimore, MD

122 A Rehab Unit's Standardized Approach to Reducing Falls and Falls with Injury

Practice

Learn how a rehabilitation unit used best-practices and data driven interventions to reduce falls and fall-related injuries, and outperform national benchmarks for over a year.

Kelsey J Archibald, MSN, RN, CMSRN,
UPMC St. Margaret, Pittsburgh, PA

123 Exceptional Care for Exceptional 'Kids: Our 'FOCUSED' Model of Care

Practice

Learn about an innovative professional practice model that enhances family and patient focused care and related performance improvement projects enhancing nursing care and patient satisfaction.

Kelly Thorstad, MScN, PHCNP, &
Jeannie M Keith, MSN, RN, NEA-BC, AOCN
Shriners Hospital for Children - Houston, Houston, TX

124 Care Redesign: A Multidisciplinary Approach for Continuous Improvement in a Colorectal ERAS Population

Practice

Learn how to engage a multi-disciplinary team to improve outcomes in a targeted patient population.

Robin Anderson, BSN, RN, & Jennifer Massengill, BSN, RN, CNML
Duke University Hospital, Durham, NC

POSTER SESSIONS

WEDNESDAY, MARCH 21
4:30 p.m. - 7:30 p.m.

THURSDAY, MARCH 22
7:00 a.m. - 8:30 a.m.
11:00 a.m. - 12:00 p.m.
12:00 p.m. - 1:00 p.m.

FRIDAY, MARCH 23
7:00 a.m. - 8:30 a.m.
12:15 p.m. - 1:00 p.m.
1:00 p.m. - 2:00 p.m.

Location: Exhibit Hall C

125 Reducing Adverse Events in a Clinic by Implementation of Modified Early Warning System Scoring

Practice

Discover ways to decrease adverse events in a hospital based clinic setting.

James West, BSN, RN, & Pamela Ridgeway, MSN, RN, CCRN
UT Southwestern Medical Center, Dallas, TX

126 Inclusive Practices for Bedside Report

Practice

What do you and your patient want to hear during bedside report?

Brian A Arwood, BSN, RN,
Indiana University Health Tipton Hospital, Tipton, IN

127 Improving RN confidence to treat alcohol withdrawal

Practice

A practice change to improve RN confidence in assessment and treatment of patients going through alcohol withdrawal.

Lucy E Altwegg, MSN, RN-BC,
William S. Middleton Memorial VA Hospital, Madison, WI

128 Emergency Department Throughput: Calling an Emergency Department team to action to increase patient safety and satisfaction

Practice

Gain insight on creating safer more satisfying Emergency Department by creating a task force to use evidence based practice to decrease throughput times.

Serenity Glazer, MSN, RN,
Houston Methodist St. John, Webster, TX

129 Virtual Sitter On Guard, a video assisted monitoring system used to reduce falls and decrease sitter costs

Practice

Learn about Virtual Sitter, a project to reduce falls and decrease sitter costs on two medical surgical units using innovative technology of video assisted monitoring.

Lisette Hurtado, MSN, RN, CMSRN, Baptist Hospital, Miami, FL

130 Reducing Violence on the Psychiatric Unit

Practice

Learn about reducing violence on the inpatient psychiatric unit by utilizing the Behavioral Activity Rating Scale as an assessment tool to guide clinical intervention.

Carlyn D Chamberlain, MA, RN-BC, & Salome R Accardi, BSN, RN
Providence St. Vincent Medical Center, Portland, OR

131 Collaboration to Ensure Quality, Safety, and Optimal Patient Outcomes

Practice

Learn how clinical nurses collaborated to coordinate and facilitate a RN skills fair at a 600 bed hospital to standardize competency validation among 1500 nurses.

Jacqueline C Ison, BSN, RN, CV-BC, &
Sheila M Hardrath, BSN, RN, CCRN
Aurora St Luke's Medical Center, Milwaukee, WI

132 Bedside Transfer Report to improve the patient experience

Practice

Learn about increasing collaboration and team work between 2 units, while increasing patient satisfaction.

Deborah Foll, MSN, RNC-MNN, CNL, &
Donna Duguay, BSN, RNC-MNN, Stamford Hospital, Stamford, CT

133 Turn Teams, how do you prevent unit acquired pressure injuries?

Practice

Gain insight on how a dedicated turning team can decrease unit acquired pressure injuries.

Evelyn Jonusas, BSN, RN, CMSRN, &
Maria D Kahn, BSN, RN, CMSRN
Baptist Hospital of Miami, Miami, FL

134 Fostering civility in the academic clinical setting

Practice

Clinical faculty have a preventative role to play in taking actions to help create a culture of civility in the clinical setting.

Brian A Arwood, BSN, RN, & Kimberly N Dunker, DNP, RN,
Worcester State University, Worcester, MA

POSTER SESSION: RAPID FIRE

THURSDAY, MARCH 22
10:00 a.m. - 11:00 a.m.

FRIDAY, MARCH 23
11:15 a.m. - 12:15 p.m.

Location: Exhibit Hall C

135 Code Team Roles: Increasing comfort levels through mock codes

Practice

Discover how a community based acute care hospital used mock codes to promote interdisciplinary team dynamics and staff's comfort levels within the various team roles.

Carrie Alfano, MS, RN-BC, CEN, &
Peter J Allar, MSN, MA Public Health, RN-BC, CEN
Long Island Jewish Forest Hills, Forest Hills, NY

136 Factors that Influence Medical-Surgical Nurse Intent to Stay

Research

Gain insight into Medical-Surgical RN's perspective of their satisfaction with the current work environment and what factors influence intent to remain in Medical-Surgical practice.

Kathleen M Matson, DHA, MSN, RN, NE-BC
Mayo Clinic, Phoenix, AZ

137 Work-related factors predicting sleep quality in nurses: a path analysis

Research

Explore the direct and indirect effects of modifiable work-related variables on sleep quality in nurses.

Yuan Li, BSN, RN,
West China Hospital, Sichuan University, Chengdu, China

138 Creating a Survivorship Care Plan (SCP) "Best Practice" Resource Guide for Women With Breast Cancer.

Research

Learn how nurses developed a person-centered resource guide to help women with breast cancer receive maximum benefit from using their Breast Cancer Survivorship Care Plan.

Dr. Judith A. Moran-Peters, DNSc, MSN, BSN, NE-BC, BC,
Memorial Hospital, Port Jefferson, NY

139 Stating the case for population health: school nurses

Research

School Nursing-focus upstream. Explore the possibilities of teaching people, not treating patients; spreading health, preventing disease.

Kathy K Hager, DNP, MSN, BSN, DNP, APRN, FNP-BC, CDE
Bellarmine University, Louisville, KY

140 Bringing High Reliability to the Bedside: Building a Culture of Safety Work Environment

Learn how principles of High Reliability were implemented in inpatient care areas to achieve > 90% process measure reliability in all relevant HAC prevention bundles.

Marjorie S McCaskey, DNP, RN, CPHQ, &
Amy N Hobbs, BSN, RN,
Childrens of Alabama, Birmingham, AL

141 Eliminating Barriers to Frontline RNs "Top of Education and Licensure" Practice

Work Environment

Provide insights into the findings of ANA's Professional Issues Panel focused on Eliminating Barriers to Frontline RNs practicing to the top of their licensure .

Kathy M Baker, PhD, RN, NE-BC,
VCU Health System, Richmond, VA

142 Enhancing Ambulatory Shared Governance Performance-Tips from a Staff Nurse and Nursing Director on Keys to Success and Overcoming Barriers

Work Environment

This presentation will lead nurses in ambulatory based practices to an engaged RN workforce whereby front line nurses become change agents, driving excellent quality care.

Dana B Millet, MHA, RN, BSN, & Julie E Noel, BSN, RNC-NIC
Medical University of South Carolina Hospital,
Charleston, SC

143 Incivility as a Barrier to a Healthy Work Environment

Work Environment

Gain insight into the role incivility plays in the development of a healthy work environment for RNs in transition and nursing leadership.

Cheryl Mallory, MSN, RN-BC,
Versant Holdings, LLC, St Petersburg, FL

144 Meal Tray/Insulin Administration: Improving Medication Safety Among Diabetic Patients

Work Environment

Explore initiatives to elevate patient centered care and safety with meal tray delivery and insulin administration for diabetic patients with effective evidenced based strategies.

Dr. Judith A. Moran-Peters, DNSc, MSN, BSN, NE-BC, BC,
John T. Mather Memorial Hospital, Port Jefferson, NY

VIRTUAL ORAL PRESENTATIONS

Location: In the App and online at <http://bit.ly/anaqi18claimcne>

VO101 Using Innovative Tools to Enhance Patient Care

Innovation and Technology

The Gamification of Empowerment: The Strong Together Serious Game to Improve Patient Self-Advocacy Skills

Learn about the development and acceptability of a theoretically-based serious game to teach female patients with advanced cancer to advocate for their health needs.

Teresa L. Hagan, PhD, RN,

University of Pittsburgh School of Nursing, Pittsburgh, PA

& Mary A McLaughlin, MSN, OCN,

UPMC - Passavant, Pittsburgh, PA

Smartphones connect nurses to patients and providers

Gain insight into an organization that uses Smart Phone technology to better connect nurses to patients and physicians in a secure and private environment.

Christopher Huot, MSN, RN, CNML,

Pennsylvania Hospital, Philadelphia, PA

A new approach to high utilizers in the medical system

The fire department uses a collaboration of nurses, firemen and a social worker to provide the best outcomes for the members of our community.

Sara A Hardin, BSN, RN, Puget Sound Regional Fire

Authority, Kent, WA

Keeping Patients Safe Using Patient-Centered Video Monitoring

Individualized fall prevention algorithm based on different patient risks factors. The use video monitoring for high risk confused or impulsive patients decreased falls by 60%.

Susana Dealmeida, MHA, RN-BC,

Northern Westchester Hospital, Mount Kisco, NY

VO102 Patient Safety at the "FourFront" Tinkle Tuesdays and Foley Fridays - How Do These Impact Patient Safety and Quality?

Practice

Explore concepts of high reliability organizations that were used to decrease catheter-associated urinary tract infections in a 32-bed ICU.

Dr. Anne Rabert, DHA, MS, BSN, RN, CCRN, NE-BC,

Lehigh Valley Health Network, Allentown, PA

The Daily Plan: Engaging the Patient as a Full Partner to Enhance Safety and Communication

Innovation and Technology

The Daily Plan is a summary report of provider orders reviewed with the patient, thereby engaging the patient as a full partner in their care.

Wendy S. Morrish, MSN, RN, CNL, VHA, Ann Arbor, MI

Learning Huddles: An Innovative Approach to Bringing Learning to the Point of Care and Promoting Patient Safety

Innovation and Technology

Explore the concept of Learning Huddles and their role in building a learning environment that promotes Patient Safety

Sara A Hardin, BSN, RN, Puget Sound Regional Fire

Authority, Kent, WA

Innovations in Patient and Family Engagement - Improving Patient Safety in Primary Care

Innovation and Technology

Describe and discuss evidence based strategies for nurses to improve patient safety in primary care by engaging patients and families.

Dr. Kelly M Smith, PhD, MedStar Health, Columbia, MD

VIRTUAL ORAL PRESENTATIONS

Location: In the App and online at <http://bit.ly/anaqi18claimcne>

VO103 Data Driven Quality Care
Visual Management of Data: The Key to Staff Driven Continuous Improvement Work Environment

Learn techniques to engage frontline staff in problem solving with data to assure successful continuous improvement while also gaining pragmatic tips to hardwire visual management.

Emily M Jackson, MBOE, BSN, RN, CSSBB
New York Presbyterian/Columbia University Irving Medical Center, New York, NY

Real Time Display of Quality Metrics and Report of Related Positive Outcomes
Innovation and Technology

Explore the use and implementation of an electronic quality board to drive quality and improvement initiatives via transparency.

Ginger E Winder, MSN, RN, CPN, &
Eliana Maldonado, BSN, RN
Children's National Health System, Washington DC, DC

Rigorous Data Collection Used to Identify Themes Among Unplanned Airway Events

Practice
Explore the framework we created to improve reporting and identify common variables between airway events in a Surgical Intensive Care Unit.

Rebekah L Friedrich, MS, RN, CCRN, CPPS, &
Meredith Huffines, MS, BA, BSN, RN
University of Maryland Medical Center, Baltimore, MD

VO104 Improved Patient Mobility = Improved Outcomes

Practice
Partnering with the Patient to Improve Ambulation - An Innovative Team Approach

Learn about an innovative, interdisciplinary team approach to partner with the patient to increase patient ambulation, improve process of care measures and patient outcomes.
Christine Marsiello, MSN, RN-BC, NEA-BC, &
Alice M. Nash, PhD(c), MA, RNC-NIC
NYU Winthrop Hospital, Mineola, NY

Getting Stronger, Living Longer Mobility Campaign

Gain insight into how an evidence-based early mobility program prevents pressure injuries, falls, and reduces length of stay in the acute medical-surgical population.
Roxann Rosendale, BSN, RN-BC, &
Melissa Pennington, ADN, RN-BC
Meritus Medical Center, Hagerstown, MD
